healthier and sustainable food and bioprocesses*

-----Mensagem original-----

Dear Colleagues,

As the Guest Editor of a Special Issue of **Foods**, it is expected to gather interdisciplinary research about functional and health aspects of cereal grains and flours and technological advances of the cereal industry. Contributions pertaining to innovations in the cereal value chain, cereal safety and security, and health and wellness from the consumption of cereal-based foods and ingredients are particularly welcome.

- ***Journal***: Foods (ISSN 2304-8158; IF = 3.011)
- ***Special Issue***: New Insights into Cereals and Cereal-Based Foods
- ***Guest Editor***: Prof. Maria Papageorgiou
- ***Submission deadline***: **15 June 2020**
- ***Website***: https://www.mdpi.com/journal/foods/special_issues/cereals_foods

We believe your research interests are aligned with this Special Issue and therefore hope you will consider making a contribution. Once the Special Issue is closed, we will share it with relevant scholars to promote all contributions. Foods (<http://www.mdpi.com/journal/foods>) is an Open Access journal with high visibility; also we will do free English editing after the acceptance of your paper.

The Article Processing Charges (APC) are **1200 CHF** (Swiss Francs) per accepted paper, please see <http://www.mdpi.com/about/apc> for details. **However, SOURDOUGH members can benefit from a 30% discount in APCs if they are coming from a developed country and be granted of a free quota if their h-index is more than 20 (including 20).**

If you wish to check the suitability of your manuscript for this Issue prior to submission, you are welcome to send an abstract to the editorial office (Ms. Savannah Yang: savannah.yang@mdpi.com) and you will receive feedback shortly.

We look forward to receiving your manuscript(s).

Kind regards,

Prof. Maria Papageorgiou
